

January 15, 2018

Kerry,

I just wanted to express my appreciation to you and your company, The Iron Pony. It's not often to find a specialty sub-contractor that has the customer service and knowledge that Iron Pony has.

We started working together on ACC7 Phase III (about four years ago) and now, here we are on ACC10 PH II. I often think about the issues you've helped us over come in dealing with existing floor finishes that other contractors caused. You helped educate us and our clients on concrete polish way better than others in your field of expertise, resulting in a product that I think our clients truly appreciate.

With the construction of fast tracked data centers, it often seems like there is very little time to get the finishes installed at the end of the project. The fact that you guys are willing to be flexible when it comes to scheduling and "dancing around" other contractors has always resulted in a product turned over on time to meet schedule while not effecting the quality.

I look forward to a continuing partnership throughout the years!

Best Regards,

Corey Pitts

Superintendent

Holder Construction Company
